The value of real estate and personal property in 1857, in totale, was as follows: Tetal......692,241,157 612,483,578 6194,724,73 The increase and decrease in the table of 1848 are

compared with the valuation of 7858.

ALL'S WELL THAT ENDS WELL -Mr. Peter Luyster, who disappeared so mysteriously on Tuesday, and tarned up on Wednesday without knowing what had occurred in the intermediate time, was married on Wednesday night in presence of a select company of ladice and gentlemen. This ends the mystery.

THE CARLE.-At a meeting of the officers of the Fire Department on Wednesday evening, it was deeided not to take part in the torch-light procession o the let of September, in New-York, inasmuch as the Western District Department did not intend to turn

PRIZE FIGHT .-- A regular raill occurred near the Penitentiary grounds, in the town of Flatbush, yesterday morning. The principals were two New-Yorkers, named Grady and Wright, and so quietly had all the arrangements been made, that no person baside those interested in the affair knew anything at all about it. Some thirty or forty persons were present, a rope inclosure was formed, and the fight proceeded in accordance with the rules of the Prize Ring. The fight sppears to bave been well contested. Thirty rounds were fought, and Grady was declared the victor, when the stakes were pulled, and the whole party proceeded homeward without molestation.

A MINISTER ROBBED .- Some speak-thieves entered the house of the Rev. Dr. Kenneday, yesterday aftermeen, and carried off a number of silver spoons and other articles of value.

ALLEGED HIGHWAY ROBBERY.-Nicholas Kenny, a young fellow seventeen years of age, was arrested on Wednesday right for attacking and robbing a man named Trimble in Washington avenue. He was com-mitted for examination by Justice Morehouse.

Suppen Death .- A woman residing at No. 175 Taylor street died suddenly on Wednesday night. She had been for some time apparently in perfect bealth, and immediately before her death crossed the street for a pail of water. On returning, she sat upon the stoop for a moment, when she was discovered soon after to be dead. The Coroner was notified to hold an

NEW-JERSEY ITEMS.

THE YELLOW FEVER -The people of Hoboken are excited because of an alleged genuine case of "Yellow Jack" in their town. The etery runs that a young man arrived a few days since from New Orleans in the steamer Philadelphia, which vessel was detained at Quaractine. The young man alluded to was permitted to land with the other well passengers, after a few days' detentien, and went straightway to his hone in Hobokeo, where he aimost immediately took to his bad, affl sted with all the symptoms of yellow fever. The event, as all such will, was speedily heralded, and was soon in every one's mouth. What it will amount to will be

time in various cities in different parts of the world. A table prepared some time since by Mr. John R. Burnet, of Livingston, gives the following interesting information:

When it is 12 o'clock high noon at New-York, the time is as follows at the stated places:

The difference of time between the extreme East and West points of the United States is 3 hours, 50 When it is Monday noon at New-York, it is 6:58 A. M. Tuesday, at Tahiti, and between 12 and 1 A. M. of Tuesday at China. In the China Sea, between Si agapore and Chine, it is midnight when it is York. The time at St. John's, Newfoundland is 1: M.S P. M., and the difference in time be tween Tri sity Bay and Valentia Bay is about 2 hours and 4 8 minutes.

THURD CONSCRESSIONAL DISTRICT MOVING. - A large and enth usia the meeting of citizens opposed to the present A imit setration was held last evening at Banson's Hom e in Mercer street, to take into consideration the selectic n of a suitable candidate to represent the Third Cong. ressional District. Mr. J. P. Edwards was called to the chair, and Mr. Philip Young appointed Secretary. Some spirited remarks were made compa-mentary to M. . John B. Fry, and recommending him to the support of all opposed to the Administration.

The following preamble and resolutions were then

presented and a tanimously adopted by the meeting:

Presented and in infillinguisty delopted by the meeting:
Whereas, his the belief of this meeting that, by a unified on
experision in this Gangressional District of all the elements of opposition to the indeputeous course and policy of the Administration
of James Ruchanan, we abould be able to elect an opponent
thereof at the approaching November election; and scheraus, is
our opinion, our esteemed fellow citizen, John B. Fry, esq.
would be more likely, by his brilliant takent and parity of character, than any of her ganleman we can designate, to command the
confilence and support of the votors of the District; therefore,
be it. confidence and support of the voters of the District; therefore be it

Resalved. That we do most estreatly recommend Mr. Fry t

THE POLICE -SENATORIAL CONNECTED OF INVEST

THEATION .- Sona, 'ors Spinola and Wheeler met in Committee this mornin, at their room at Florences, No. 400 Broadway, and organized the Committee, and commenced their labo. " by sending for Mr. Embree, the Chief Clerk. We us derstand the Committee will be in session daily until the 'r labors are completed. It will take some time to get the ough the official acts of erganization, but we may soon , "spe'v; to hear of some of the details.

TENTE WARD REPUBLICAN PRIMARY ELECTION .-Tae election for degrates from the Tenth Ward to the

Avenuery District Convention was half last evening at No. 274 Grand atreet. Means. H. R. gones, G. Donaldson and J. M. Alson, were electric to the Sixth District, and Mesers. Wm. Kellons, T. C. Thurston and A. Willman, to the Fourn District Convention. There was no opposition.

SUPPOSED RECOVERY OF STOLEN PROPERTY .-About a week or ter, days ago, the house of Mr. Brodie, in Mercer street, was entered by a sneak thief and robbed of jewe ry valued at \$600. The servant-girl of Mr. Brodie di scovered the rogue in the bouss as he was engage putting his shoes on (baving taken then off h order to pass up and down stairs without making a roise), and seized hold of him, when he knocked tha girl doven and effected his escape, with two confederater who had been watching out ide. The three immed stely left for Boston, whither they were followed by Officer Shangles; but, happening to be at the railroad as the officer reached it, and suspecting that he was after them, they immediately returned to this city, where two of them, Elijah Burke and George Meade alias Boston George, were arrested on Tuesday last by Officers King and Slowey, but none of the stolen property was recovered. Lust evening, Officers King and Less succeeded in capturing their accomplies in the robbery, Thomas Hill, at a house in the vicinity of Greene and Broome streets, and on searching the room where he was secreted, the officers found 48 pawn tickets concealed in bottles, and from a cursory inspection of the pawn tickets, it is believed that a large por tion of Mr. Brodle's property will now be recovered. Hill was accordingly locked up for examination.

AN OFFENDER IDENTIFIED .- On Sunday evening last a Mr. S. P. Ellis was assaulted, and robbed of a valuable gold watch and other property, in Jones's Woods, at the close of the concert there, by two young men, both of whom made their escape at the time; but yesterday Officer Shangles took into custody a sus-picious-looking customer who was in the crowd of pa;sons accompanying the Hariford firemen through Canal street, and last evening the fellow, who gave hi name as William King, was identified by Mr. Ellis as one of the two men who robbed him on Sunday night. King was accordingly locked up to await examination.

FIRE IN CHATHAM STREET.-Last night at 11 o'clock a fire broke out in the building No. 156 Chatham street, occupied by Robert Irwin as a boot and shoe store. The fire originated on the second floor, and was probably caused by a lighted eigar stump insolvertently thrown upon the floor. Two men who slept in the store were down stairs at the time, having only a little while before closed the concern. The damage was principally by water, and will not be very heavy. Insured for \$8,000 in the Firemen's and Pacific Insurance Companies

NEW EDISCOPAL CHURCH AT MOUNT VERNON. N. Y .- The ladies of the Episcopal Church of Mount Vernon, Westchester County, propose holding a fair and festival on Monday and Tuesday next, for the purpose of raising funds to aid in completing the new house of worship now in the course of erection there.

house of worship now in the course of erection there.

The American Championship.—The fourth deposit for the fight between Morrissey and Heenan was duly made on Monday lest, and \$500 a side added to the battle money which was previously up. There is now staked in all the round sum of \$3,000, and two deposits more of \$500 such will complete the \$5,000, for which the ambitious aspirants are to contend. Above money, however, do they prize the fame which lies behind the stake, and it has been estimated that the leading position which victory will give the winner is worth at lerst, beside its renown, an income varying from \$3,000 to \$5,000 a year. Nobody in particular contributes to give the champion of the time this income, but it flows toward him from a variety of sources, in the way of favors which servilty or admiration readily concedes; and he is in hard luck indeed if some half-dezen patrons are not acxious to set him up in business, or if he cannot make from \$500 to \$1,000 out of each Spring and Fall political campaign. As for political operations binnelf, he is never beyond the resch of the Assembly, or the Common Council, while the Conston-House always holds itself ready to consider itself obliged by opening its doors to his sceaptanes of one of its assy and remunerative betthe. Such are Custom-House always holds itself reacy to consider itself obliged by opening its doors to his sceaptance of one of its easy and remunerative berths. Such are the morals of prize fighting in New-York, and so keenly is its philosophy appreciated that shrewd politicians are already courting the respective champions at their training grounds, with the view of being able to seize a committee, or secure a nomination at the November election, should their favorite wire. The gladiators, on their part, perfectly according to their says and with become there the almost immediately took to his bed, afflered with all the symptoms of yellow fever. The event, as all such will, was speedily heralded, and was soon in twery one a mouth. What it will amount to will be thown are long.

The Difference of Time—The success of the Attentio Cable has called attention to the difference of time in various cities in different parts of the world. times, small patient crowds are collected to catch a glimpse of one who is so famous as to be in preparation even for a first-class light. Hobbee, the old philoscipher, said "the natural state of markind was war," and if the eager interest which modern society devotes upon everything in the shape of battle, from a bombardment with great guus to the content of two giants in a prize-ring, is to go for anything, then assuradly his proposition is well ribbed up with proof.

Certain it is, that the forthcoming battle between Morrisers and Heenan does not yield in interest to any

Certain it is, that the forthcoming battle between Morrisey and Heenan does not yield in interest to any local event that has been before the town for weeks; and it bids fair to command a degree of attention to the end equal to that of any previous event of like nature that ever took place in America. The next two deposits are both of \$500 a side, and they are to be put up respectively on the 6th of September and the lat of October next. The \$5,000 being then the let of October next. The \$5,000 being then all "posted." the two combatants are to meet in this city on the 9th of October, and toss for the fighting-ground, and the one winning it is bound to choose some place in Canada, not less than 75 miles distant from Buffalo, and not more than 125 away. As each party is supposed to have made his choice of place before toesing, the winner is expected to inform the loser at once where he will pitch his ropes and stakes. This being dore, all that remains is, for the parties to meet on the 20th of October, at the appointed place, and between the hours of 12 and 2 o'clock, to present themselves at the score and fight. From present appearances, both men will be in the very highest condition on the 20th of October, to perform in that way.

CANADA—MINISTERIAL FRAUD.—The people have at length decided that the present Ministry shall not be allowed to hold their seats in defiance of the law, without a resort to the tribunals provided to try the question. Mr. Adam Wilson, Q. C., has been instructed to commence preceedings for the recovery of the penalty of ±500 for every day which Mr. John A. Macdonsid, Mr. Sidney Smith, and Mr. P. M. Van koughnet have sat in Parliament since their re-ap-pointment, and the best lawyers entertain no doubt of the success of the suit. The action will be tried before a jury this Fall, but will probably go up to the judges before being finally decided. [Foronto Globe.

MARRIED.

GRIFFEN-COMPTON-At Mount Vernon, on Mouday, Aug 13, by the Rev. Mr. Harris, Mr. George W. Griffen to Mis-Martha L. Compton. MARGOT-COLLIER-On Thursday, Aug. 19, by the Rev. L. Ch. Piquet, at the bride's residence Mr. Charles Margot of Switzerland, to Mary, youngest daughter of E. Collier of this city.

SINGER-CLARKE-On Wednesday, Aug. 25, at Calvary Rec-tory, by the Rev. Francis L. Hawks, Isaan A. Singer to Saral I. Clarke, daughter of C. W. Clarke, eq.

DIED. BAYP. GATE—At Newark N. J., on Taursday morning, Aug. 28. E. Isabeth, wife of James E. Bathata. The rel. Wave and friends of the family are invited to attend the fun end services without further invitation, on Sabbath aftern.c. a stone o'clock, Orange street (Roseville) Newark. CHITEY—At No. 120 Leonard street on Wednesday, Aug. 25, of consum often, Peter Chirry, Jr., in the 65th year of his acc. COLEMAN.—In Brocklyn, on Wednesday, Aug. 25, after a fragering ill, sees, which he have with Christian resignation, Samuel H. Culeman, a native of Cressmolina, County Mayo, Ireland.

Irriand.

DE BEVOISE—At Bushwick, Long Island, on Theaday evening, Aug. 24. Advianna, twin daughter of Charles I, and Jane L. De Bevoise, of consumption, in the 18th year of her aga. The relatives and frie dos of the family are respectfully invised to attend her funeral, (without further invitation, from the residence of her parents, on Friday, Aug. 27, at 2 p. m. DAWSON—At sea, on the passage from Sagna to New-York, on Monday, Aug. 3, of yellow fever, William C. Dawson, aged 34 years; also, on Friday, Aug. 13, his brother, Alexander R. Dawson, both natives of Dun fee.

DEMPSEY—At No. 8 St. Luke, place, on Wednesday, Aug. 25, John, son of Andrew and Sara. Dempsey, aged 1 year and 10 months.

EDWARDS—Drowned, on Monday, Ang. '3, at New-Hacken-sack, Dutchess County, N. Y., George Frederick, youngest een of John B. and Hannan Edwards of this city, speed 2 years. Epressive were taken to Bridgeport for leterment.

FITZOERALD—At No. 141 West Forty first at set, on Weiner-day, Aug. 25, de shime, James Fitzesti.

FOWLER—On States Island, on To stay, Aug. 17, Mrs. Susan J., wife of Jouethan W. Fowler, aged 52 years, 6 months and 9 day 1. GILMER- On Wednesday Aug. 25, of consumption, George F. Guinner, am of Car. F. and Julia Gilmer, in the 18th rest

of his age.

The friends and releatives of the family, and of his grandfe har.

The friends and releatives of the family, and of his grandfe har. of his age.
The triemes and 100 attwee of the family, and of his grandfa her, the late Caleb condham, are respectfully invited to attend his forces, from his late residence. No. 213 Plant Breakway, 60 Pladay atto here at 2 clock, without firstee invitation.

HASSET:—At Tenkers, on Toseday, Aug. 24, Bridget Hausett, with of John Hausett, and 37 years.

HATCH—At No. 38 North Moore street, on Wednesday, Aug. 24, Harriet Elmina, danabase of Almond La and Matilia Hatch, aged 11 months and 90 ays.

JOURDAN—At No. 190 Mulberry street, on Wednesday gramming, two. 24, after a lingwing invites, Mercaret Journal coulder of the late Pariok Journal, and daughter of the late Pariok Journal, and the Remedy of New-Alexandria, Westmorieland Comity, Petin, aged 21 years, 7 months and 3 days.

LEONARD—In Lowerdle, N. Y., on Wednesday, Aug. II, Mary M., wife of James L. Leonard, and only daughter of the Hon. Joseph A. Willard, in her 20th year.

MORRELL—at Portchester, Westmester County, N. Y., on Wednesday monther, Aug. 25, William Lee Morrell, aged 21 years and months.

MORRELL—at Portchester, Westmester County, N. Y., on Wednesday monther, Aug. 27, William Lee Morrell, aged 21 years and months.

years and 6 months.

MORROW—A: No. 276 West Thirty fourth street, on Toesday, Aug. 24, Enjah Morrow, aged 51 years, 10 months and 22 days FOST—On Wednesday, Aug. 25 Eather, wife of Samuel L Post, and doughter of the late Jacob Hars, in the Moth year of her same. The friends of the family are invited to attend her fineral on Friday, 27th just, at 3 o'clock p. m., from her late residence, No. 1005 Broadway.

dev 27th list, at 3 o'clock p. m., from her late residence, No. 1 026 Broadway.

RICH—In Brooklyn, on Thursday, Ang. 26, Clara Watson, doubter of Ebsteare and Eather Rith, aged 1 year, 3 months and 4 days.

The friends of the family are invited to attend the funeral on Saturday, at 4 pm., from No. 220 Washington street, Broadlyn, REYNOLDS—At St. Catharine's Springs, on Wednesday, Ang. 25, at 12 m., J. N. Reynolds.

His remains will be brought to this city for interment.

REYNOLDS—At No. 33 Pitt street, suddenly, on Thesday, Aug. 24, Edward D. Reynolds, late Purser in the United States Navy, aged 35 years.

SHELLY—In Jersey City, on Thesday evening, Aug. 24, William Shelly, in the 33d year of his age.

THURSDAY, Aug. 26-P. M. Business at the Stock Exchange was more active to day, and the mark it was a rising one for all of the leading shares. The bull party was more fairly represented in the dealings, and manifested decidedly more spirit and courage; while the bears, falling to make much im pression in the attack of yesterday, were apparently somewhat intimidated, and much less disposal to contend against the advancing march of themarket. Notwithstanding the delay in bringing matters between the Central and Er'e Roads to a final adjustment, the popular centiment seems to be that the breach will healed after a full discussion of the differences. The interests of the stock and bondholders in each corporation demend the compromise imperatively, and if the directors permit personal feelings or interests to interfere, they will assume a heavy responsibility. The movement in Central was not extensive, but prices worked up gradually to the close of the Board, when sales were made at 79 over 1,000 shares changing hands at the quotation. Erie advanced to 171, with but a slight increase in transactions over the average for some days past. Michigan Southern common and preferred shares were very firm, both descriptions advancing decidedly over closing prices of yesterday. The earnings of this road continue quite satisfactory, the third week in August showing an actual it crease over the same week in 1857, as per statement annexed. Toledo was in good demand at an advance of | # cant, the stock closing firm at 34], and the bulls taking seller contracts with considerable confidence. Rock Island rallied smartly from its depression of yesterday, and went up to 721, a leading operator bidding 721 for 2,000 shares. The attack on this stock, which has been particularly obeliante for some time past, is suggested by doubts as to the practicability of a dividend in October which some are disposed to entertain, on account of the meager earnings recently reported. Galena was steady at 83 831, but had no especial prominence in the transactions. Michigan Central was without material change, though a trifle firmer in the afternoon The gross earnings of June and July show a decrease of \$141,000, but during the same time the expenses have been reduced \$119,000, and the loss in net earnings for the two months as compared with 1857 is but \$22,000. At the Second Board the operations were not large, but there was a further advance of | to | P cent in leading stocks, and the market closed steady.

each, and there were sales of Minnesots 8 Pecents at 106]. Hilinois Central Bunds advanced and M'chigan Central Sinking Funds ; La Croese Land Grante were in demand at 24], and Fond du Lace odvanced |. The closing prices were for New York Central, 79@791; Hadson River, 281 @ 281; Reading, 49 @ 421; Michigan Southern, 23; @ 24; Preferred do., 451 045]; Pasara, 114 9 114; Gaicas, | 4: Chicago Aug. 21:

Freigh's are inactive. To Liverpool, 5,000 bushels of Wheat, & City of Washington, on private terms; Cotton at 5-32d.; 750 bbis. Rosin at 1s. 6d.; 200 bigs Seed at 12a 64. 2 tun. To Bremen, 500 bbla. Rosin at 2s. A sebooner to Belfast, and one to Hallawell with Flour at 20c., and Corn at 3] to; another to Portland, on private terms. The famous back Airiatio was chartered from St. Mary's to Bosnos Ayres, with Lumber at \$11, and 5 \$\vert \text{opentprimage}.

The business of the Sub-Treasury was: Receipts.

\$68,359 63-\$50,000 from Customs; Payments, \$279,-653 22; Balance, \$13,519,691 83. 53 22; Esiance, \$13,519,691 83.
At the meeting of the Erie Board to-day the basis of

settlement agreed upon between Mr. Moran and Mr. Corning was presented and referred to the Executive Committee, without power. A report was current that the Board, before acting upon the agreement, would require the Central Company to resoind all orders of an intercourse issued against such Western Roads as have resisted the dictation of the Cleveland Convention. The action of the Eric Road, in referring the matter to the Executive Committee, looks like a step backward, and we understand that the tone of the remarks in the Board was not favorable to the adoption of the measures agreed upon without important modification. The Directors still appear to lack confidence in the good faith of the Central, and to be under the impression that the earnings of their Road are larger under the present condition of things than they would be under the higher rates of fare resulting from a settlement of the present disagreement. There is evidently s large minority, if not a majority of the Board who look with little favor upon the present negotiations. The earnings of the Michigan Southern and Northern

passenger business showing a large decrease. The total experts of railroad iron from Great Britain to the United States for the seven months of this year,

compared with those during a like space in 1856 and 1857 are as follows: S. Draper's daily auction sale of Bonds and Stocks

will take place to-morrow (Friday), at 121 o'clock, at the Merchants' Exchange. The business of the Clearing-House to-day \$17,897,141, A sale of \$100,000 of the Government Loan was

made yesterday at 103; interest until 1st of January to go to the seller. An offer from Baltimore of 1033 for \$100,000 was refused, although it is offered at the Stock Board at that rate. The payments into the Sub-Treasury on account of the Loan have reached over nine and a quarter millions of the ten millions awarded. Nothing could show more conclusively that New-York is the great monetary center of the Union. A deposit of \$100,000 was to have been made to-day on New-Haven account.

An auction sale of 376 lots of tailoring goods this morning drew out a fair company. The offering was mostly composed of vestings. A large part of these being velvets, which are in over supply, sold low. Of the high-coet staple goods, especially, a considerable portion was passed.

The Boston steamer for Liverpool, yesterday, took no specie. The Empire City, from New-Orleans, has \$112,000, probably Mexican silver, on board.

Mr. John P. Yelverton has resigned the Presidency of the Mad River Road.

Mr. Alanson Robinson, Receiver of the Hollister

Benk of Buffalo, sold on Tuesday a large amount of notes, bords, mortgages, judgments, real estate, &c., belonging to the bank. The sales were made for cash down, and amounted in the gross to \$16,067 45. Many of the claims, such as notes and judgments, to the amount of about one hundred thousand dollars, brought less than 3 P cent on the dollar. A mortgage of \$2 150, secured on the farming lands of Grand Island, sold for \$1,700, and others in the same proportion. The Receiver's adjusted claims against the bank were taken as each in payment for bilis. The sale of real estate, under the circumstances, brought fair prices, although the gross amount of sales, for so large a share of its assets, must be anything but flattering to the stock-

bridge! Next week we can dispense with stages, and take an omnibus to North La Crosee. We understand a line of "busses" are ready and watting. Through to Milwaukee by rail from La Crosse next week! The world moves, and La Crosse is connected with America with a new head! week! The world moves, and Le with America with an iron band!

nessee will resume specie payments on the 1st of September.

The Cincinnati Gazette of the 24th says, that the Bank of the Ohio Valley, (the new redemption bank) of that city, is progressing steadily toward the starting point. W. A. Goodman had been appointed cashier. The bank will commence operations on the lat of Sec-

B. Sago Cheese 3 sal of the written opinion of the Supreme Court of that district, in the case of the Oneida Bank against the On-tario Bank, argued at the last general term or co-Court. The suit was brought to recover the amount of \$14,000 due on four drafts drawn by James S. Lynch. esshier of the Ontario Bank, on Duncan, Sherman & Co., which were discounted by the Oneida Bank before the days of their respective dates, and the payment of which was refused at maturity by the drawers.

We copy as follows:

The defendants object to paying the drafts, because they are signed by the Cashier only, the statute requiring that all contracts made by a bank shall be signed by the Cashier and the President or Vice President. dent. The Court say that under the decision of the Court of Errors they are compelled to hold that this objection is not a good one, that this decision is con-

objection is not a good one, that this decision is con-clusive on the Supreme Court, and must be reserved, if at all, in the Court of Appeals, and that the signa-ture of the Cashier alone is sufficient to bind the bank. The Court next take up the objection that the drafts were dated in advance. One, dated July 24, was dis-counted June 24; another, dated July 30, was dis-counted June 24; the third, dated August 3, was dis-counted July 3; and the fourth, dated August 15, was discounted July 7. The statute (Laws of 1480, chap, 363, sec. 4) for bids any banking association to issue or put into circulation any bill or note of said association, out into circulation any bill or note of said association, inless the same shall be made payable on demand and

covery can be had on the common counts for money advanced on the draft, and decide that the evidence

Appears. The large amount in suit, and the impor-tance of the questions arising in the case, seem to de-mand that the Court of last resolve should be called upon to settle the law involved, positively and beyond dispute.

Expects from I. E. Tourseed's Letters of date day, 16, 1838.

Missasora.—We have rearred some increase in product over the previous month, as you will observe.

From the prevent position of the works, I think there is a reasonable prospect that the monthly pool ast will be greater for the balance of the year, than through the former months. We have not, worked the "open cutting," near No. 4 during the past month, and consequently the "return" releaved no aid from that source. We are putting up a horse whim there, shaft-house act, and shall soon be able to prosecute the work vigor-usly. We are also getting some good mass Copper from the conclumerate above the additively, be ween shafts Not 5 and 8. There is a large smount of ground there, which appears to be rich with mass Copper, extending into and through the considerate; and last week we raised from this place one piece of about five tuns. You will bear in mind, this is above the adit level where the regular vein had been removed some time since, the ground timbered, and dirt filled in again. That the occurrence of Copper in the conglomerate at other points, led to a further examination this season, and I am happy to say with good results.

From the examination it seems we have been unaware of the extent and value of this new feature in eur works. It can hardy fail however, to be of great importance to the mine for the next year or two, if not longer. No. 8 shaft is still sinking by a strong vein of mass copper. No. 8 shaft will reach 80 fathom level at the end of this month; the vein looks well—be ter

lenger. No. 8 shaft is still sinking by a strong vein or mass copper. No. 3 shaft will reach 80 fathom level at the end of this month; the vein looks well—batter than it was found to be in sinking the previous shaft. The 70 fathom level, between shafts Nos. I and 3, and the 60 fathom, west of No. 4 continue to look well, and produce mass copper in considerable quantities. The work in the 50 fathom level, east of No. 6 shaft, still opens up mass copper, but we have not been able to move the large mass reported there last monta, and cannot until some sleping is done. In 40 fathom level we have a rich value of the state of t

still opens up mass copper, but we have not been able to move the large mass reported there last mouth, and cannot until some sleping is done. In 40 fishom level we have a rich vain, 200 feet east of No. 6 shaft, where both veins are united. The big mass in back of 20 fathom level bet ween Nos. 5 and 8 shafts is being cut, ready for shipment; it will fully equal our previous estimate of 150 tuns.

Rockland.—We had very little copper last mouth from the stumps, owing to want of water to work them, and dress the stuff. This and other causes have made a light return, but as soon as we have water for stamping, &c., we shall do better at once, as the stuff is now accumulating on our hands. The new engine will be ready to run, as soon as the pumps are placed, and the shaft-houses made ready. The bottom level (30 fathom) looks promising, but we are not meeting with any very heavy masses in the vein and the same may be said of 20 fathom level in most points, the yield being largely barrel and stamp-work. East of No. 4 shaft, the 20 fathom level is improving, and when that shaft reaches the 30 fathom level, and is connected through at that depth to No. 3, we shall, I trust, be in a better position, and make larger returns.

tember.

The Utica Observer has been favored with the peru-

unless the same shall be made payable on demand and without interest. The Court, after discussing the point at length, decide that the drafts in question, being dated in advance, were violations of the statute; and they accordingly "pronounce" on the transaction, that "the paper thus insued is utterly void," and "cannot be recovered on in this action."

The Court say further: "A'though these drafts are void as issued in violation of the statute; yet not being declared so by the statute, they are valid in the blands of a bona fide holder, for value paid. Is the plaintiff such a holder of this paper? It took the paper for value paid at the time, but it took it with notice derived from the face of the paper that it was issued in violation of law. It is not, therefore, a bona fide holder without notice."

The Court then discuss the question whether a recovery can be had on the common counts for money

advanced on the draft, and decide that the evidence will not warrant such a recovery. They therefore conclude by saying that, although they would be pleased to aid the plaintiff in collecting the large sun involved in this litigation, the law pronounces its judg-ment against the demand, and the Court can only re-cord its decree. Judgment is rendered for the detend-nate with costs. We presume the case will be carried to the Court of

COFFEE—Very little has been done; prices are steady; sales of RO bars Rio at 10c.

EARTHENWARE—A moderate business is doing, but we cantot report any general activity in trade, although several buyers from the distant West are in market; but the truth is, buyers from this section are backward both in payments and in purchases thus far. Southern buyers have also purchased with least alterity, owing probably to the prevalence of sickness in Southern cities. The stock of goods, however, in first as well as in agents hands is light, but the jobbing houses have a good assortment, and are pecking moderately for the South, and commencing to peck for the West. Trade is protestly retarded, however, in this transit by the amount mement of a small sale in Baldimore, and a large one for 700 pkg., the stock of smanifacturer on the other side retiting from business; here on the let prox. Importers, in the mean time, are chering their goods low, probably on as advantageous terms as they can be bought at anotion as they are.

FLUCE AND MEAL—The chemind for the better grades of Western Cara: From is more active, and there is considerable unspend State presenting on the market; the sales are 4,000 bbis, at 640-64 20 for rejected superfue chairs. At 550-64 70 for care strength of the market; the sales are 4,000 bbis, at 640-64 20 for rejected superfue chairs. At 550-64 70 for care the filling of the count superfue chairs. the Borron.

Bisnaters, &c.

Bisnov, Aug 25-The ship Union, Davis, from New Orisans for Beaton, spring a leak below that city yesterday, and public in distress.

By telegraph to Ellwood Walter, See'y Board of Underwind Thire Schill. Pransviv.anna, Robinson, of Philadelphia from Alexandria for Bridgeton, N. J., spring a leak off Marrhy River to-day. Captain and crew resemed and taken to Philadelphia Asichart. G. B., Aug. 18-The briganties Howard Magne, of Barb, from Warebarn in barlast, bound to Pict. a, was transided on the southern and of Point Michesian on the 16th lost. Vessel has been condemned, but advertised for sale. The fix was built at Damariscotta. Me., in 1854, was 207 turn, owned in Bath, and valued at \$4.5.0.

[By letter to Ellwood Walter, seq., Sec. Board Underwick.]

To Mariners.

In Chedebucto Bay, 56 fathoms E. of Carbarus Rock, there has been placed a red and white spar buoy, striped herizontal. The rock makes its appearance at the low set of tides.
